Dear Tony,

Thank you for the enlightening experience of the art classes from Iris Silva offered by your gallery. I had the opportunity to take both a drawing class and a painting class from this very accomplished artist and human being. She is fun, inspiring and easy going. She has a precise method of imparting the basic principles vital to every piece. I learned to relax and allow my body and eye movements to create free flowing images and paintings from still life. This technique I have applied in all art pieces I have worked on since.

I plan on continuing my classes with Iris and look forward to all the quality offerings from Woods Cove Art Gallery.

Sincerely,
