

SUMMER 2026 @MM

SURF'S UP

June 8th -July 3rd

SEA CREATURES Popsicles Face Painting Sea Salt Painting

Sensory Play Splash Days **Beach Party**

This summer we're bringing all the laid-back beach vibes with a wave of playful, hands-on fun. We're going to hang ten and dive into ocean-inspired activities, from sea-foam sensory play and ocean salt painting to creating sea glass art. Our classroom shelves will be full of fun materials inspired by sea creatures, ocean habitats, and coastal life—encouraging curiosity, creativity, and plenty of “wow, dude!” moments throughout the day.

We'll also be catching some serious summer fun with themed dress-up days—think lifeguards on duty, Hawaiian shirts, and beach-ready style. Children will explore ocean ecology, learn about fascinating sea creatures, and bring it all to life through imaginative play in our beach café mud kitchen. It's all about riding the wave of creativity, getting a little sandy (in the best way), and soaking up a summer full of sunshine, discovery, and good vibes.

PLANES, TRAINS & THINGS THAT GO!

July 6th - July 31st

Red-Light, Green-Light **Train Travel** WATER PLAY

Community Helpers **Car Wash** TRICYCLE RACES

All aboard for a summer full of motion, imagination, and hands-on fun! We'll fuel up and get rolling as we explore transportation across land, water, and air. From riding a real trackless train to racing boats in our sensory tubs, each day will be filled with opportunities for discovery. Children will decorate their own cardboard cars before cruising into a special drive-in movie day—tickets in hand, of course!

We'll dig into new experiences, exploring excavators in the sandbox, wash and paint with cars while learning how different types of transportation move and work. Our little travelers will jump into imaginative play, making tickets and setting off on classroom “trips” as they explore the world around them.
