I was raised in Tustin and attended Arroyo, Hewes and Foothill High School. My passion for tennis started early. I began playing tournaments at the age of ten. My junior tennis career produced 11 national championships and a singles CIF individual championship at Foothill. These and other achievements allowed me to earn a full tennis scholarship to USC. While I was at USC, I was a four-time All American and a NCAA doubles champion. I was on the ATP tour for six years, during which time I achieved a ranking of 18th in the world in doubles and top 200 in singles. I competed in all the major grand slam tournaments (Wimbledon, French Open, Australian Open and US Open). I won 5 ATP doubles titles, one of which was the LA Open.

My coaching career started in 1993 here in Orange County. North Tustin Tennis was started in order to create a group program for all levels of play. My first goal is to teach beginners good fundamentals while at the same time providing an environment in which they can improve, compete, and enjoy this great game. The second goal is to get players ready to play high school tennis.

Summer session is a great time to introduce tennis to beginning players. There is not much better than watching a new player catch the tennis bug. Our drills are formulated to get players competing, having fun and learning something new.

In addition to summer introducing tennis to new players, it is also a great time to improve and practice for existing players. My invitational program gives players amazing court time for drills and competition.

The program is now 10 years old and is still a tremendous success! We continually develop hundreds of tennis players at all levels. Part of my personal joy is to be involved in all the classes and to know all the players by name. My involvement in all skill levels is rare, but is part of my passion for the game. My program continues to evolve and improve. See you on the courts!
